

Matrix Concepts Holdings Berhad (MCHB) Sustainability Policy

MCHB Sustainability Policy sets out sustainability:

“To provide solutions which reduce the environmental impact of buildings, and provide better spaces for the people who inhabit them. We will do so while providing safe, comfortable and healthy workplaces for our employees and believe that all employees play a key role in achieving our social and environmental goals.”

To achieve this we will:-

Projects

Develop and encourage solution to improve the environmental performance of every project we work on by considering practical ways to reduce greenhouse gas emissions, reduce accidents/ hazard occurrence, energy and water consumption, natural resource depletion, waste to landfill and pollution.

Develop and encourage solution that provide better spaces for people through consideration of daylight, comfort, glare, internal air quality, noise and connectivity to nature.

People

Provide our staff with the skills, knowledge and enthusiasm to deliver practical environmental solution through a strong commitment to training and knowledge sharing and rewards based on performance.

Leadership

Provide environmental leadership to the building industry through an active contribution to research and development, compliance with and key industry bodies and requirements.

Our Business

Reduce the environmental impact of our own operations by managing our energy and water consumption, encouraging use of cycling and public transport, recycling waste, implementing an eco-friendly purchasing policy and ensuring our new office fit-outs are a practical demonstration of environmental sustainability.

Management

Implement and maintain an Environmental Management System and seek to continually improve our environmental performance, comply with applicable legal requirements and prevent pollution.

Report

Report transparently on our environmental and social performance and make this available on our websites.
