

NEGRI SEMBILAN TOWNSHIP

Bandar Sri Sendayan to get McDonald's outlet

KUALA LUMPUR: Matrix Concepts Holdings Bhd has inked a strategic cooperation agreement with McDonald's, which has chosen to open an outlet at Bandar Sri Sendayan, Negri Sembilan.

The new McDonald's restaurant at Sendayan Merchant Square will feature both dine-in and drive-through facilities.

"With its prime location and

convenient facilities, the new restaurant is poised to become a favourite destination for the local community," said Matrix Concepts group managing director Ho Kong Soon.

He added that the arrival of McDonald's was a testament to the township's vibrancy and maturity and would provide greater convenience for the local

community.

He added that the collaboration with McDonald's was part of an ongoing plan to further enhance the sustainability of the township.

The agreement was signed between Ho and McDonald's Malaysia managing director and operating partner Datuk Azmir Jaafar recently.
